

9750

The 9750 Remote Area Lighting System (RALS) is Pelican's next generation of RALS designed for professionals who demand performance and versatility. Boasting a light output of up to 8,250 lumens, a 24-hour maximum runtime, and an intelligent control system for managing multiple light modes, the 9750 RALS delivers the durability and adaptability required in the field for a powerful, easy-to-use portable scene-lighting solution. Whether you're illuminating a scene as part of an emergency response scenario, setting up a temporary command station, or establishing sufficient light for a visual inspection, the 9750 RALS ensures safe, reliable operation in the most diverse and demanding environments.

- Variable light modes, High, Medium, & Low
- Delivers up to 8,250 lumens of bright, reliable light
- 24 hour max runtime
- Removable light heads allow for multiple setups
- Rear puddle light for additional safety illumination around the unit
- IPX4-rated, water-resistant
- Intelligent Control System to manage multiple Spot, Flood, & Spot + Flood light modes with a real-time battery level display
- Compact, lightweight design makes transport and deployment easy
