

CTOTE

Dayventure

The Dayventure Tote delivers dependable cooling in an easy-loading, open-top design built to haul what you need without slowing down your day. Its spacious top-load opening, exterior dry-storage pocket, and padded shoulder strap make it ideal for relaxing outings that still call for reliable gear. Whether you're setting up at the trailhead, gearing up for a day outside, or moving between stops, the Dayventure Tote combines effortless access, generous capacity, and the durability Pelican is known for - all within one versatile carry-all.

- Lightweight design with padded shoulder straps enables ultimate portability and versatility
- Webbing loop strips on the side to clip on other items or secure the cooler
- High density closed cell foam for extreme insulation
- Leak-resistant zipper with a waterproof seal
- Compression molded base and lid for increased structure and durability
- Puncture-resistant material stands up to the hard knocks of outdoor use
- Two-strap top handle for quick grab-and-go
- "Light pull" YKK Zipper for the main and side compartment
- Exterior pocket for additional storage and organization
